Experience

Software Developer October 2024 – Present
Deqode Solutions *Indore, Madhya Pradesh*

- Contributing to the development of a **blockchain-integrated full stack web application** using **React, Nest.js, MySQL, and Web3** technologies.
- Integrated the **Haha wallet** using a **custom RainbowKit** configuration to enable secure NFT transactions with **99% transaction success rate**.
- Designed a resilient RPC fallback mechanism using multiple **Monad testnet RPCs**, reducing transaction failures by **80%**.
- Built **gasless transaction workflows** across frontend and backend, achieving **90%+ smart contract test coverage** using Chai.
- Contributed to a **full-stack banking platform** and resolved **5+ critical vulnerabilities** with the help of **Splunk**.
- Gained hands-on experience in writing unit and integration tests using **Jest** and **Enzyme**, achieving **85%+ code coverage**.

Software Developer Intern March 2024 – June 2024
Jio Platforms Limited *Remote*

- Optimized features for **2 internal web and mobile applications** using **React.js, Firebase, and React Native**.
- Added a download feature that arranges pre-captured screen images into a PDF, enabling large file downloads within **2–3 seconds**.

Web Developer Intern December 2023 – March 2024
Evolve Webinfo Pvt. Ltd. *Dewas, Madhya Pradesh*

- Contributed to the development of company software, gaining hands-on experience with **PHP, JavaScript, WordPress, and MySQL**, resulting in a **10% increase in project delivery speed**. Also designed and created **custom WordPress Themes and Plugins** using **PHP**.

Full Stack Developer Intern July 2022 – January 2023
Digilytics Systems *Remote*

- Completed a 6-month Full Stack Developer Internship, gaining practical experience in **ReactJS, Gitlab, Firebase, Flask**, and **Python**, and significantly improving team productivity by **contributing 2K+ lines of code.**
- Modernized a website by adding new features, refining the navigation bar and UI, implementing real-time QR code functionality for generating unique URLs, and adding a CSV file download feature, which led to a **25% increase in user satisfaction.**

Education

MIT World Peace University Pune, Maharashtra
Bachelor of Technology in Electronics and Communication | CGPA: 8.66/10.00 *July 2019 – June 2023*

Projects

Memories | GitHub Repo | Live Demo
Skills: MongoDB, Express.js, React.js, Node.js

- Built a full-stack MERN application supporting **Google OAuth** and **JWT authentication** for **100+ users**.
- Implemented CRUD operations for posts with likes and comments, handling **500+ user interactions**.

Technical Skills

Programming Languages: C, C++, JavaScript, TypeScript
Web Development: React.js, Node.js, Express.js, HTML, CSS, Nest.js, Material-UI
Testing & Tools: Jest, Enzyme, Chai, Git, GitHub, GitLab, VS Code
Database Management: MongoDB, MySQL
